Vote Totals

On the following pages, each position's vote totals are presented.

Please note, candidates submitted a role preference ranking prior to the election. The Returning Officer used that information to finalise the election results (e.g., Candidate A received the most votes in 3 categories, but preferred role X, so the Candidate B with the 2nd most votes won for role Y. In role Z, Candidate A had the most votes and Candidate B had the second most votes. However, Candidate B preferred role Y, so Candidate C, with the 3rd most votes, wins for role Z.)

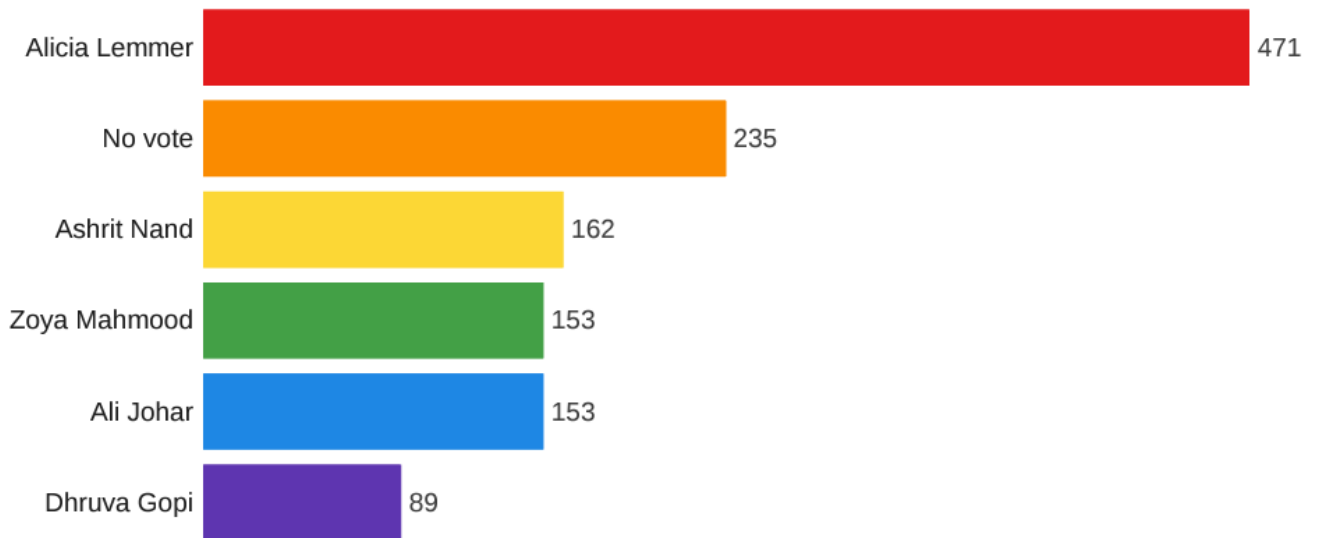

For the 2024 SRC Elections, Qualtrics was used to conduct the election. A total of 20,599 students were emailed using a data set of current AUT students, which was provided by AUT. Multiple reminders were sent to students during the voting period. Qualtrics received 1,479 responses. Qualtrics' reports were used to present the graphs on the following pages.

The screenshot shows a web browser window with the URL `aut.au1.qualtrics.com/homepage`. The page features the XM logo and a navigation menu with a 'Home' link. A blue circular profile icon with the letter 'C' is displayed above the text 'Welcome to XM'. Below this is a gear icon for settings and a search bar with the placeholder text 'Search by name, type, owner...'. A 'Recently visited' section contains a link to 'See all projects'. A survey card is visible, titled 'AUTSA Elections 2024 - Final' with '1479 Responses' and a 'Closed' status button.
